Attempt ALL questions.

All dimensions are in mm.

All technical sketches and drawings use third angle projection.

You may use rulers, compasses or trammels for measuring.

Write your answers clearly in the spaces provided in this booklet. Additional space for answers is provided at the end of this booklet. If you use this space you must clearly identify the question number you are attempting.

Use blue or black ink.

Before leaving the examination room you must give this booklet to the Invigilator; if you do not, you may lose all the marks for this paper.

 "Birdy" is a new type of bird box produced by Bio, an environmentally conscious retailer. The lid and body are made from sheet metal. A CAD technician produced the rendered 3D CAD illustration and the pictorial line drawing shown below.

(a) State **two** reasons why the CAD technician would have produced the rendered 3D CAD illustration shown above.

- (b) State the type of pictorial line drawing shown above.
- (c) Describe **one** advantage that the pictorial line drawing has over the 3D CAD illustration.

3. "Toob" is a self assembly chair produced by FORM UK. The chair has been designed for ease of assembly using a matching system. Tubes with shaped hollow cores connect to corner brackets with matching pegs. Rendered 3D CAD illustrations of the assembled chair and a detail view showing the matching system are shown below.

An exploded view, orthographic drawings and details of the matching system used for the three different lengths of tube that form the frame are shown on the **supplementary sheet for Question 3**.

A graphic designer has been tasked with constructing a parts list for the assembly instructions. An incomplete parts list is shown below.

(a) Indicate in the table below, the quantity of each type of corner bracket required and the shape of pegs that will be used for each.

Bracket 2 has been completed for you.

	matching system	angle	Quantity
Bracket 1	/	90°	
Bracket 2	\land / \Box	20°	2
Bracket 3	/	106°	
Bracket 4	/	90°

3. (continued)

FORM UK have decided to launch the new chair at a number of international furniture trade shows. During the shows, promotional materials for the new chair will be distributed.

The designer was tasked with producing a postcard which met the following design specification:

The final design is shown below.

Front of postcard

Back of postcard

FORM UK are happy that the above postcard meets all of the specification points.

(c) Describe how the postcard has met the specification points.
