## General marking principles for National 5 History

*Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.*

- (a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
- (b) If a candidate response does not seem to be covered by either the principles or detailed marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.
- (c) Marks for each candidate response must **always** be assigned in line with these general marking principles and the detailed marking instructions for this assessment.
- (d)
  - (i) For credit to be given, points must relate to the question asked. Where candidates give points of knowledge without specifying the context, these should be rewarded unless it is clear that they do not refer to the context of the question. For example, *Some soldiers on the Western Front suffered from trench foot as they were unable to keep their feet dry.* (1 mark for knowledge, even though this does not specify that it relates to the Scottish soldiers)
  - (ii) There are six types of question used in this question paper. Each assesses a particular skill, namely.
    - A. Describe . . .
    - B. Explain the reasons why . . .
    - C. To what extent or How important or How successful. . .
    - D. Evaluate the usefulness of Source X as evidence of . . .
    - E. Compare the views of Sources X and Y. . .
    - F. How fully does Source X describe/explain. . .
  - (iii) For each of the question types (in ii above), the following provides an overview of marking principles and an example of their application for each question type.

### A Questions that ask candidates to **Describe** . . . (4 marks)

Candidates must make a number of relevant, factual points. The points do not need to be in any particular order. Candidates may provide a number of straightforward points or a smaller number of developed points, or a combination of these.

#### Up to the total mark allocation of 4 marks for this question

- 1 mark should be given for each accurate relevant point
- a second mark should be given for any reason that is developed, as in the following example.

**Question:** Describe the Liberal Welfare Reforms introduced between 1906 and 1914.

*The Liberals brought in a number of welfare reforms that were aimed at helping the poorest people in society. (1 mark for knowledge) They were particularly trying to help children and the elderly. (a second mark for development)*

**B Questions that ask candidates to *Explain the reasons why* . . . (6 marks)**

Candidates must make a number of points that make the issue plain or clear, for example by showing connections between factors or causal relationships between events or ideas. These should be key reasons and may include theoretical ideas. There is no need for any evaluation or prioritising of these reasons. Candidates may provide a number of straightforward reasons or a smaller number of developed reasons, or a combination of these.

**Up to the total mark allocation of 6 marks for this question**

- **1 mark** should be given for each accurate relevant point
- **a second mark** should be given for any reason that is developed, as in the following example.

**Question:** Explain the reasons why the Liberals introduced their social welfare reforms between 1906 and 1914.

*The Liberals introduced a variety of reforms in order to help the poorest in society as it had been shown that this group was suffering particular hardships. (1 mark for a reason) Booth had identified that over 35% of Londoners were living in poverty. (a second mark for developing a reason)*

**C Questions that ask *To what extent* . . . or *How important* . . . or *How successful* . . . (9 marks)**

Candidates must make a judgement about the extent to which different factors contributed to an event or development, or to its impact. They are required to provide a balanced account of the influence of different factors and come to a reasoned conclusion based on the evidence presented.

Give **1 mark** for each relevant, factual, key points of knowledge used to support factors: up to a **maximum of 5 marks**. If only one factor is presented, a **maximum of 3 marks** should be given for relevant points of knowledge.

Up to **4 marks** should be given for presenting the answer in a structured way, leading to a conclusion which addresses the question, as follows.

- **1 mark** for an introduction. (which places the question in its historical context or outlines relevant factors)
- **1 mark** for the answer being presented in a structured way. (with knowledge being organised in support of different factors)
- **1 mark** for a conclusion with a valid judgement. (or overall summary)
- **1 mark** for a reason in support of the judgement. (a summary cannot be supported)

**Question:** To what extent was genuine concern for the poor the main reason why the Liberals introduced their welfare reforms between 1906 and 1914?

The Liberals introduced their welfare reforms between 1906 and 1914 for many reasons. One of these was genuine concern for the poorest in society but concerns about both national efficiency and the rise of the Labour Party were also clear motives. **(1 mark for an introduction – factors)**

Some historians think the Liberals passed their welfare reforms to help the poorest people. The National Insurance Acts helped keep workers out of poverty. **(1 mark for knowledge)** The introduction of old age pensions meant that families didn't have the burden of supporting the elderly. **(1 mark for knowledge)**

*However, other historians think they were more concerned with fighting off the Labour Party. (1 mark for balance) Cutting the working day for miners was simply a way of buying their support. (1 mark for knowledge) The National Insurance Acts were targeted at working men who might be likely to support the Labour Party if they felt the Liberals didn't listen. (1 mark for knowledge)*

*Others believe it was about national efficiency. Churchill and Lloyd George argued that Britain needed its people to be fitter to be able to compete. (1 mark for knowledge) They were shocked by the state of the men who volunteered during the Boer War and wanted to solve this problem. (1 mark for knowledge)*

*Overall, the Liberals were more concerned about helping the poor. (1 mark for a judgement) Most of their reforms were directed at helping the poor and it is clear from their speeches that this was what motivated them most. (1 mark for supporting a judgement)*

**D Questions that ask candidates to *Evaluate the usefulness of a given source as evidence* of . . . (5 marks)**

Candidates must evaluate the extent to which a source is useful by making separate evaluative comments on aspects such as the author, type of source, purpose, timing, content and omission.

**Up to the total mark allocation of 5 marks for this question**

- a maximum of 4 marks can be given for evaluative comments relating to author, type of source, purpose and timing
- a maximum of 2 marks may be given for evaluative comments relating to the content of the source
- a maximum of 2 marks may be given for evaluative comments relating to points of significant omission.

**Example response (*Evaluate the usefulness of Source A as evidence of the effectiveness of Liberal Welfare Reforms*)**

*Source A is useful as it was written in 1910 which was at the time when the Liberals were introducing their main reforms. (1 mark for timing) It was written by the Prime Minister so it may be less useful as he has a personal interest in making the reforms sound successful. (1 mark for authorship) It says ‘these reforms will make the lives of the poor infinitely better’ which shows evidence of bias and makes it less useful. (1 mark for content) On the other hand it also says that ‘the National Insurance Act would benefit working men by giving them unemployment benefits’ which is accurate so makes the source more useful. (1 mark for content) But it is less useful as it fails to mention that women would not really be covered by this Act. (1 mark for omission)*

**E Questions that ask candidates to *Compare the views of two given sources about* . . . (4 marks)**

Candidates must interpret evidence and make direct comparisons between sources. Candidates are expected to compare content directly on a point-by-point basis.

**Up to the total mark allocation of 4 marks for this question**

- A simple comparison will indicate what points they agree or disagree about and should be given 1 mark. A developed comparison will be supported by specific references to each source and should be given 2 marks.

**Example response (*Compare the views of Sources A and B about the effectiveness of King Charles I as a ruler*)**

*Sources A and B agree that King Charles I was an ineffective ruler. (1 mark for a simple comparison)*

*Source A agrees with Source B where it says ‘the king failed to maintain control of parliament’ and Source B says ‘King Charles provoked his own people to rebel’. (a second mark for developing a comparison)*

*The sources disagree about how far Charles I created his own problems. (1 mark for a simple comparison)*

*The sources disagree about how much Charles I’s problems were his own making, where Source A thinks Charles was a disaster as king, while Source B feels he was generally not bad but made some important mistakes. (2 marks for a developed comparison)*

- F** Questions that ask *How fully does a given source explain/describe . . .* (6 marks)  
Candidates must make a judgement about the extent to which the source provides a full description/explanation of a given event or development.

**Up to the total mark allocation of 6 marks for this question**

- candidates should be given up to **3 marks** for their interpretation of points from the source that support their judgement
- candidates should be given up to **4 marks** for their identification of points of significant omission, based on their own knowledge, that support their judgement
- **a maximum of 2 marks** may be given for answers in which no judgement has been made or which refer only to the source.

**Example response (*How fully does Source B explain the reasons why the Liberals introduced their reforms*)**

*Source B explains the reasons why the Liberals introduced their reforms fairly well (evidence of judgement) as it mentions their growing fear of the Labour party. (1 mark, point from source). It mentions specifically the Welsh MPs such as Lloyd George who might lose their seats. (1 mark, point from source) It also deals with the raising of working-class expectations which the new Labour Party might bring. (1 mark, point from source) However, it fails to mention (evidence of judgement) their genuine concern for the masses which motivated many MPs.*

*(1 mark, significant omission) The poor state of health among volunteers for the Boer War had shocked many of them into demanding changes. (1 mark, significant omission) Others, such as Churchill, felt that poverty was holding back Britain's competitiveness as a nation and must be changed. (1 mark, significant omission)*

**Example response (*How fully does source A describe how the Liberal reforms 1906–1914 led to improvements in the lives of the young and the old?*)**

*Source A describes how the Liberal reforms led to improvements in the lives of the young and old to a certain extent (evidence of a judgment) as it mentions that the Old Age Pension Act helped to keep the old out of poverty (1 mark, point from the source). It also mentions that children in schools were given free school meals to help them focus on schoolwork. (1 mark, point from the source). However, the source doesn't mention (evidence of judgment) that medical inspections in schools were also introduced to improve the lives of the young (1 mark, significant omission). The source also doesn't mention that the Children's Charter helped keep children out of the workhouses (1 mark, significant omission).*

Leading figures in industry provided finance for Hitler as they trusted he would take tough action against the Communists.
Source A	Source B												
President Paul Von Hindenburg was persuaded that the appointment of Hitler could help stabilise the country.	President Hindenburg was convinced by others to make Hitler Chancellor of Germany in order to provide strong government.												
Franz Von Papen of the Centre Party supported the appointment as he felt he could control Hitler.	Von Papen had the mistaken belief that he could keep power in his own hands so backed Hitler as Chancellor.												
Many industrial leaders helped Hitler with funding as they believed he was the man who could keep out the Communists.	Leading figures in industry provided finance for Hitler as they trusted he would take tough action against the Communists.
