General marking principles for National 5 Modern Studies

Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.

- (a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
- (b) If a candidate response does not seem to be covered by either the principles or detailed marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.
- (c) Award a mark for each answer. Marks are not transferable between questions and the answers for each question must come from the item.
- (d) There are five types of questions used in this question paper:
 - A Describe, in detail . . .
 - B Explain, in detail . . .
 - C What conclusions can be drawn . . .
 - D You must decide which option to recommend
 - E Explain why the view . . . is supported or opposed

Questions that ask candidates to describe or explain, in detail . . . (4, 6 or 8 marks)

- Award up to **3 marks** for any single description, depending on quality, level of detail, relevance, accuracy and exemplification.
- Award up to 4 marks for any single explanation, depending on quality, level of detail, relevance, accuracy, exemplification and answers which show the interaction of various factors.
- A list-type answer, made up of a series of undeveloped points, should be awarded a maximum of 2 marks.
- Full marks can be achieved by any combination of single and developed points in line with specific marking instructions.
- Where candidates are instructed to give specific knowledge and understanding related to a particular topic or issue, markers should refer to the detailed marking instructions for the question.
- Where candidates have given more than the required number of responses, mark all parts of the answer and award the marks that will favour the candidate.

Questions that ask candidates to evaluate a limited range of sources, giving developed arguments supporting and opposing a view (10 marks)

- Award up to 3 marks for a developed explanation depending upon the quality of argument and accurate use of evidence.
- In order to achieve full marks, all sources must be used, and candidates must show evidence that supports the view as well as evidence that opposes the view. Candidates who only give evidence to support OR oppose the viewpoint should be awarded a maximum of 6 marks.
- For full marks, the candidate must refer to all sources in their answer. Award a maximum of 6 marks if only two sources are used and a maximum of 4 marks if only one source is used.

Questions that require the candidate to evaluate a limited range of sources by selecting evidence from them in order to make and justify a decision/recommendation (10 marks)

- Award up to 3 marks for a justification depending on relevance and development of the evidence.
- For full marks candidates must justify their decision/recommendation and explain why they have rejected the other option.
- An answer which deals with only one option should be awarded a maximum of 8 marks.
- For full marks, candidates must refer to all sources in their answer. Award a maximum of 6 marks if only two sources are used and a maximum of 4 marks if only one source is used.

Questions that require the candidate to use a limited range of sources and draw valid conclusions from them, with supporting evidence (10 marks)

- Candidates should draw conclusions using the bullet points in the question.
- For full marks, four conclusions must be given.
- For full marks, candidates must refer to all sources in their answer. Award a maximum of 6 marks if only two sources are used and a maximum of 4 marks if only one source is used.
- 1-mark conclusion

Candidates make a conclusion using the bullet point provided **OR** correctly identify information from the sources using the bullet point but do not make an overall conclusion.

• 2-mark conclusion

Candidates make a conclusion using the bullet point provided. They support the conclusion using at least one piece of evidence drawn from the source(s).

• 3-mark conclusion

Candidates make a conclusion using the bullet point provided. They support the conclusion using two pieces of evidence drawn from the source(s). Candidates will include evaluative terminology within their answer.

Possible approaches to answering the question: One advantage of the Additional Member System is that it provides more choice to voters. (1 mark — accurate but undeveloped point) One advantage of the Additional Member System is that it provides more choice to voters. This is because voters are given two votes, one for a candidate and one for a party. (2 marks — accurate point with development) One advantage of the Additional Member System is that it provides more choice to voters. This is because voters are given two votes, one for a candidate and one for a party. For example, in 2021 Nicola Sturgeon was elected to the Glasgow Southside constituency alongside seven regional Glasgow MSPs from different political parties. (3 marks — accurate point with development and exemplification) One disadvantage of the Additional Member System is that it creates two types of MSPs which can cause confusion for some voters. This is because after the election some voters do not know who to go to with an issue or problem, as they have a total of eight MSPs representing them. As a result, this often means that the more widely recognised MSP, which is normally the constituency representative, tends to have a heavier workload than the regional MSPs that constituents are less familiar with. (4 marks — accurate point with development, exemplification and analysis)

Possible approaches to answering the question: One advantage of First Past the Post is that it is easily understood. (1 mark — accurate but undeveloped point) One advantage of First Past the Post is that it is easily understood. This is because the candidate with most votes wins the constituency election. (2 marks — accurate point with development) One advantage of First Past the Post is that it is easily understood. This is because the candidate with most votes wins the constituency election. For example, in 2024 Gordon McKee (MP) won the constituency of Glasgow South as he secured 4,154 more votes than the next most popular candidate. (3 marks — accurate point with development and exemplification) One disadvantage of First Past the Post is that it is not proportional. This is because the percentage of votes does not equal the percentage of seats that a party secures. For example, in 2024 the Labour Party secured 33.7% of the votes but were awarded around 64% of the seats. This occurred because the party was able to win 411 constituencies across the UK. Possible approaches to answering the question: Option 1: Ban MPs from having second jobs I recommend Option 1 because in Source 1 it says that 'MPs currently receive a basic annual salary of £91,346. The average salary in the UK is less than half of this.' (1 mark — evidence drawn from Source 1) I recommend Option 1 because in Source 1 it says that 'MPs currently receive a basic annual salary of £91,346. The average salary in the UK is less than half of this.' 			advice to private companies or using their position to gain influence for big businesses and therefore breaching the standards expected of elected representatives.'
			Reasons for rejecting the other option: I could have picked Option 2 because in Source 3 Zac says, 'It is clear that MPs don't earn a lot of money from their second jobs.' However, this is wrong as in Source 1 it states that 'some MPs have received millions of pounds through second jobs and have become very wealthy as a result.' (2 marks — evidence linked from Sources 3 and 1)
			Option 2: Do not ban MPs from having second jobs I recommend Option 2 because in Source 1 it says that 'Recent polls suggest there is public support for MPs having a second job although this is dependent on what that job is.' (1 mark — evidence drawn from Source 1)
			I recommend Option 2 because in Source 1 it says that 'Recent polls suggest there is public support for MPs having a second job although this is dependent on what that job is.' This links to Source 2 which shows that 54% of the public approve of MPs being NHS doctors and 50% approve of them being army reservists. (2 marks — two pieces of evidence drawn from Sources 1 and 2)

			Credit reference to aspects of the following: • 'Traditionally, MPs having second jobs helped ensure that Parliament was filled with experienced professionals, from a range of diverse industries and backgrounds thus bringing a greater wealth of experience, expertise and insight into the House of Commons.' (Source 1) which links with Source 3 – 'Allowing MPs to have second jobs also brings a greater diversity of people to the House of Commons and is an important way for MPs to gain experience of working life outside politics, which can only be of benefit to their constituents' • Source 1 says that 'Second jobs gives MPs job security should they be defeated at the next election.' which links with Source 3 which says 'We also have to be fair to our MPs as not being allowed a second job may make them unemployed if they no longer remain an MP.' Reasons for rejecting the other option: I could have picked Option 1 because in Source 3 Kiera says, 'the majority of the general public in every nation of the UK support a ban on second jobs.' However, she is wrong as Source 2 shows that the majority of the general public in England do not support a ban on second jobs. 14.	The candidate is required to evaluate a limited range of sources, to support and oppose a point of view. In order to achieve full marks candidates must show evidence that supports the view and show evidence that does not support the view. An answer which deals with only one side of the explanation should be awarded a maximum of 6 marks. For full marks, candidates must refer to all sources in their answer. Award a maximum of 6 marks if only two sources are used and a maximum of 4 marks if only one source is used.	10	Candidates can be credited in a number of ways up to a maximum of 10 marks. Possible approaches to answering the question: Evidence to support the view of Jess Porter that MUP has been a success in Scotland: Source 1 states that 'According to recent studies, since the introduction of MUP, alcohol sales in Scotland have fallen.' (1 mark — accurate use of Source 1 but minimal development) Source 1 states that 'According to recent studies, since the introduction of MUP, alcohol sales in Scotland have fallen.' This can be linked to Source 3 where Professor Barbour says that 'Our research has shown MUP has reduced alcohol sales in Scotland, and this has undoubtedly benefitted the nation's health.' (2 marks — accurate use of Sources 1 and 3 linking two pieces of evidence) Credit reference to aspects of the following: Source 1 states that 'according to research it is estimated that each year, on average, MUP has saved 268 lives and has prevented 899 hospital admissions.' Source 1 states that 'The alcohol products that MUP has specifically targeted, such as strong ciders and spirits, have seen the biggest reduction in sales since the pricing policy was implemented.' Source 2 shows that a majority (52%) of those surveyed said they buy less alcohol because of MUP. Joe in Source 3 says 'I don't drink strong cider or spirits anymore as it is simply too expensive.'
